**BIO DISEASE MANAGEMENT** 

Country of origin: South Africa

Product suitable for use in Organic Farming in accordance with:

Regulations (EU) No 2018/848 and 2021/1165 and the NOP Regulation. Controlled by ECOCERT F-32600

# **WARNINGS**

Contains Trichoderma asperellum. Microorganisms may have the potential to provoke sensitising reactions.

### **PRECAUTIONS**

- Do not mix in containers that have previously been used for toxic substances.
- Wash mixing containers well with soap and water before use.
- Wear protective gloves/protective clothing/eye protection.
- In case of inadequate ventilation, wear respiratory protection.
- Do not eat, drink, or smoke when using this product.
- Wash hands and face thoroughly after handling.
- Do not touch eyes.
- Avoid breathing dust, mist or spray.
- IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical help. Take off contaminated clothing and wash it before reuse.
- **IF INHALED:** Remove person to fresh air and keep comfortable for breathing. If experiencing respiratory symptoms: Get emergency medical help immediately.
- · Contaminated work clothing should not be allowed out of the workplace.
- Dispose of contents and/or container in accordance with regulations.
- If medical advice is needed, have product container or label at hand.
- Do not use after expiry date.
- Reseal packaging after use.
- Shake or stir the product mixture frequently during use to avoid settling out of the product.
- Do not use under extreme conditions i.e. temperatures above 35°C or at soil/water pH less than 4 or higher than 7.

# **DIRECTIONS FOR USE - Use only as directed SEED TREATMENT**

- Seed dressing application rates differ for different crops.
- Apply to maize at a rate of 1 g/kg of seed or 25 50 g/ha; to wheat at 1 - 2 g/kg seed or 40 - 80 g/ha; or to soybeans at 1 g/kg seed or 50 - 75 g/ha.
- For rates on other crops please consult your local agent or Andermatt Madumbi - www.andermatt.co.za for details.
- A sticker is not required where Eco-T<sup>®</sup> is added during on-farm treatment with insecticides, compatible fungicides, or Rhizobium inoculant.
- Apply as a dry powder to slightly moist seed.

# **DRENCH**

- Apply as a drench to seedling trays, seedbeds, potted plants and turf at planting, and monthly thereafter.
- Mix at a rate of 1 g / 4 L water.
- 250 g of this product treats 3000 m<sup>2</sup> seedbed or 3000 seedling trays.
- Use 250 500 g/ha for field applications.
- Mix the required amount of the powder to a thin paste with a small amount of water before adding the remaining water.
- Irrigate the product into the root zone after application.

# COMPATIBILITY

• Do not mix with any agrochemical without first consulting your sales agent.

**DISCLAIMER:** Although this product has been tested under a variety of conditions, the supplier does not warrant that it will be efficacious under all conditions. Because the active agent is a living organism, its action may be affected by storage, handling, climatic or soil conditions. The supplier is also not responsible for poor performance of the product due to failure of the user to follow the label instructions. This naturally occurring organism should not cause damage to crops, vegetation or the environment, nor harm to man and animals. However, in the unlikely event of this happening, the supplier does not accept responsibility for any damage that may occur.
